

Real Pathways RI is a new workforce development initiative that supports partnerships between and among public, private, and nonprofit agencies that focus on serving populations with traditional barriers to employment (ex. veterans, homeless, long-term unemployed) or regions of the state with above average concentrations of poverty or unemployment.

Led by a lead convener, these partners will collaborate to provide workforce development services that are demand-driven, linked to the larger workforce development network, and designed to maximize the opportunities for middle class employment.

It starts with partnerships....

...who serve populations with challenges to employment....

...and build pathways to opportunity....

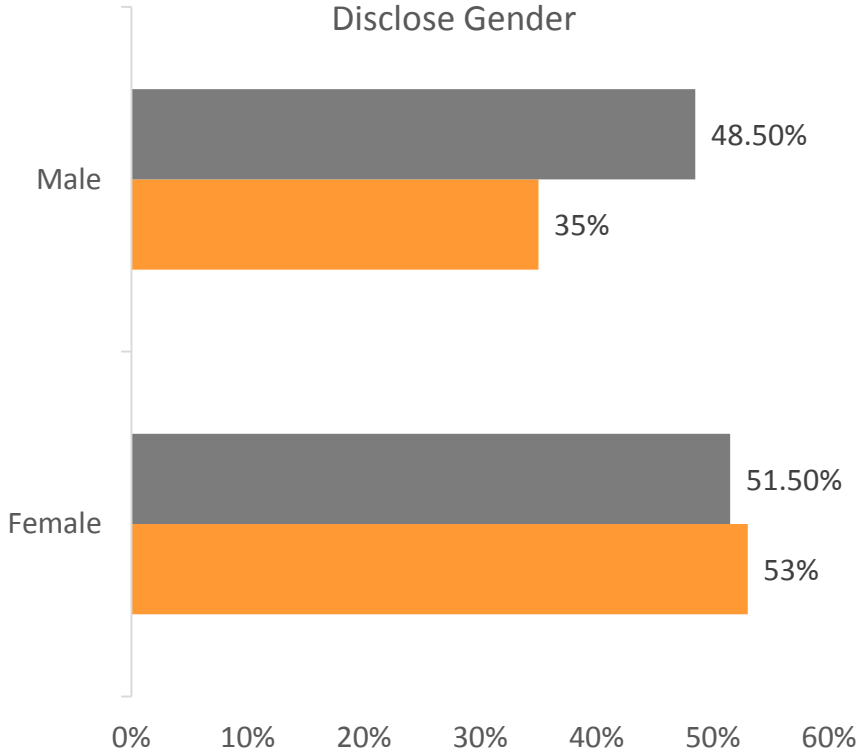

Performance as of 12/31/2018
